U.S.G.A. RULES OF GOLF GOVERN PLAY, EXCEPT AS MODIFIED BY LOCAL RULES.

1. If a ball strikes the metal guard rail in front of #1 green the stroke must be replayed, without penalty.
2. Embedded ball relief is given "through the green."
3. Free relief is given from all wrapped trees.
4. The maintenance area is considered "ground under repair."
5. Ball drops are designated behind #16 green as an option for relief from the flower bed, and #6 green as an option for relief from the water hazard.
6. If a ball strikes the wooden railing on the bridge in front of #16 the shot must be replayed, without penalty.
7. Play is prohibited from newly sodded areas: treated as ground under repair.
8. Measuring devices that measure distance only are permitted as long as they do not measure conditions which would affect a player's shot selection, i.e. wind, slope, etc.
9. Public roads define out of bounds where they meet the course property.
10. All boundary fences define out-of-bounds.
